# Subject index to volume 78, 1997 and to abstracts presented at the 1996 annual meeting of the ACAAI

## A

- Acaricide, effect on symptoms of asthma 506  
Accolate in treatment of exercise-induced asthma 113[P43]  
Accuhaler compared with Turbuhaler 118[P62]  
Acquired immunodeficiency syndrome, seronegative at birth with seroconversion 98[67]  
Acrodermatitis enteropathica with hypogammaglobulinemia, response to zinc 99[69]  
Activation markers in non-atopic subjects 45  
Adrenal corticosteroids  
  inhaled, metabolic interactions of 156[P215]  
  intranasal, compared with antihistamines by effects on outcomes in treatment of allergic rhinitis 155[P211]  
β-Adrenergic agonists, differences in activities of different enantiomers of eformoterol 52  
Aeroallergens sensitization in Sacramento 148[P182]  
Aeroallergens  
  changes in Newark, NJ 85[16]  
  in Las Vegas, NV 145[P171]  
  in Rochester, MN 150[P189]  
Aeroallergens, tree in Washington, DC 381  
Aerobid  
  M compared with Azmacort in treatment of asthma 117[P57]  
  with Aerochamber compared with Azmacort 120[P71], 121[P74]  
  with Aerochamber compared with Azmacort for differences in coordination of inspiration with actuation 120[P72]  
Aerochamber with Mask compared with Baby-haler for delivery of beclomethasone dipropionate 120[P69]  
Agenesis of right lung associated with asthma 114[P48]  
Albuterol  
  causing syncope in patients with hyperexcitable conduction system 230  
  compared with bitolterol in treatment of asthma 112[P37]  
  compared with theophylline in treatment of nocturnal asthma 111[P34]

Brackets indicate abstract numbers of abstracts presented at the ACAAI annual meeting and published in January 1997 (1997;78:81-156).

- from Diskus compared with Turbuhaler 118[P62]  
metered dose inhaler compared with Turbuhaler 119[P68]  
nebulized, compared with Maxair Autohaler 118[P63]  
response of chronic obstructive pulmonary disease 110[P30]  
treatment with metered dose inhaler with spacer compared with nebulizer 123[P83]  
with non-CFC-propellant and CFC-propellant, comparison of patient perception 117[P60]  
Allergic bronchopulmonary aspergillosis, diagnosis with purified Aspergillus antigen 95[53]  
Allergist, effect of consultation on readmission of inner-city asthmatic children 95[55]  
Allergy  
  environmental, as cause of sleep apnea 128[P102]  
  heredity of 149[P188]  
  role in otitis media with effusion 129[P107]  
  to bee venom in Mexican beekeepers 145[P172]  
Allergy clinic management of asthma compared with emergency room 373  
Alternaria allergens, synthesis of and recognition by IgE antibodies 287  
Amyloidosis as cause of swelling of tongue 91[39]  
Anaphylactoid reactions to nitroglycerin 138[P144]  
Anaphylaxis  
  due to ethanol in *Cucumis melo* 285  
  food-dependent exercise-induced 146[P175]  
  food-dependent exercise-induced, due to mold 102[84]  
  from milk-contaminated sorbet 102[83]  
  how soon to skin test after 151[P194]  
  idiopathic 148[P183]  
  idiopathic, in children 152[P199]  
  intraoperative, due to bacitracin 91[38]  
  masquerading as acute myocardial infarction 90[36]  
  due to nontherapeutic exposure to penicillin [Abstract] A-18  
Anemia  
  autoimmune hemolytic, fatal induced by penicillin 27  
pernicious 17  
Anergy, predictive value in critically ill patients 130[P110]  
Angioedema  
  as manifestation of T-cell lymphoma 91[40]  
  association with angiotensin converting enzyme inhibitor [Letter] 80  
  association with asthma, rhinitis, and allergy 147[P180]  
  due to hair conditioner [Letter] 602  
  due to sarcoidosis 92[41]  
iC3b increased in patients with 85[14]  
misdiagnosed in patient with thymoma 90[35]  
Angiotensin II inhibitors, hazards of 527  
Angiotensin converting enzyme inhibitor, angioedema associated with [Letter] 80  
Antibody, persistence of antipneumococcal after immunization 136[P136]  
Anticholinergic drugs, adverse effects of 439  
Antigenicity of hydrolyzed formulas 153[P202]  
Antihistamines  
  adverse effects of 439  
  compared with intranasal corticosteroids by effects on outcomes in treatment of allergic rhinitis 155[P211]  
  during pregnancy 157  
Apoptosis 245  
Arrhythmia, cardiac  
  due to β2-agonist 230  
  due to juvenile dermatomyositis 89[30]  
Arthritis, juvenile, treatment with sulfasalazine 103[P1]  
Aspergillus, purified antigens for diagnosis of allergic bronchopulmonary aspergillosis 95[53]  
Aspirin and paracetamol, adverse reactions to 88[26]  
Astemizole  
  and norastemizole receptor binding properties 144[P167]  
  compared with norastemizole 144[P166]  
  effects on canine cardiovascular responses 143[P163]  
Asthma  
  acute, pulse oximetry compared with peak expiratory flow rate as predictor of outcome of 112[P38]  
  air travel of patients with 117[P59]  
  airway hyperresponsiveness in patients in remission 124[P86]

associated with agenesis of right lung 114[P48]  
associated with coarctation of aorta 117[P58]  
characteristics of patients with incomplete airway reversibility 195  
children who require emergency treatment of 221  
differential diagnosis in infants 449  
due to bloodworms (*Chironomus*) 150[P191]  
education, evaluation of effect of 114[P47]  
education, of parents of children with 116[P56]  
education of patients with, evaluation of 113[P44]  
effect of allergist consultation on readmission rates dependent upon followup care 95[55]  
effect of care by specialist on treatment and outcome 92[44]  
effect of perfume 95[54]  
effect of parental smoking on children with 419  
effect of treatment of associated allergic rhinitis with Claritin-D 95[56]  
emergency visits for, association with atmospheric mold but not pollen or latex particles 138[P143]  
ethnic differences in prevalence 21  
exercise-induced, treatment with zafirlukast 113[P43]  
guidelines for diagnosis and treatment of 427  
fluticasone propionate for treatment of 356  
hospitalized patients compared with those discharged from emergency room 116[P53]  
hypersensitivity pneumonitis and vocal cord dysfunction mistaken for 101[78]  
immunotherapy for 107[P20]  
in children in Mexico 115[P51]  
in patient with hyperimmunoglobulinemia E syndrome 136[P133]  
in patient with Papillon-Lefevre syndrome 137[P138]  
induced by hot dog vapors 35  
management in allergy clinic compared with emergency room 373  
management program 93[48]  
mite avoidance and acaricide effects on symptoms 506  
mortality 333, 347  
mortality stabilization 93[45]  
nocturnal, effect of salmeterol 110[P32], 111[P33]  
nocturnal, treatment with theophylline compared with albuterol 111[P34]  
occupational, due to Dermestid beetle 151[P195]  
occupational, due to fennel seed 37  
onset after bone marrow transplantation 89[31]  
patient education videos and pamphlets rated 113[P41]

peak expiratory flow rate, for monitoring of [Letter] 425  
pneumodystostinum and subcutaneous emphysema due to 116[P55]  
poor perception of breathlessness by children with 96[59]  
prevalence 265  
prevalence and risk factors in children in Argentina 94[P49]  
prevalence in Manila 91[P39]  
quality of life and health care utilization by African-Americans with 43  
recruitment of subjects for intervention difficult 93[47]  
relationship of severity to serum IgE 93[46]  
risk factors [Abstract] A-18  
salmeterol compared with therapy for treatment of 457  
self-management program, evaluation of 93[P45], 93[P46]  
sighing as manifestation of 91[P40]  
treatment of respiratory failure with high flow oxygen sodium bicarbonate 69  
treatment with albuterol by metered dose inhaler with spacer compared with nebulizer 123[P83]  
treatment with albuterol compared with bitolterol 112[P37]  
treatment with formoterol 111[P35]  
treatment with inhaled corticosteroids 117[P57]  
treatment with inhaled fluticasone propionate, effect on plasma cortisol after cosyntropin stimulation 156[P213]  
treatment with Maxair autohaler compared with nebulized albuterol 118[P63]  
treatment with methylprednisolone, oral compared with intravenous 112[P37]  
treatment with oral contraceptive 115[P50]  
treatment with salmeterol and theophylline with and without inhaled corticosteroid 110[P31]  
treatment with triamcinolone acetonide and nedocromil sodium, synergism of 156[P216]  
treatment with zileuton 94[50], 113[P42]  
vocal cord dysfunction induced by gastroesophageal reflux mistaken for 101[79]  
vocal cord dysfunction mistaken for 115[P52]  
with gastroesophageal reflux and eosinophilic gastritis 80  
Ataxia telangiectasia with T cell leukemia and septicemia 135[P132]  
Atopy, transfer by bone marrow transplantation 573  
Autoantibodies, correlation with signs and symptoms of lupus erythematosus 103[P2]  
Avium antigen as cause of hypersensitivity pneumonitis 152[P197]  
Azelastine

effect on urinary N-methylhistamine in asthmatic children 492  
nasal spray in treatment of allergic rhinitis 143[P162]  
Azmacort  
compared with Aerobid M in treatment of asthma 117[P57]  
compared with Aerobid with Aerochamber 120[P71], 121[P74]  
compared with Aerobid with Aerochamber for differences in coordination of inspiration with actuation 121[P73]  
spacer compared with toilet paper roll 121[P73]

## B

Babyhaler compared with Aerochamber with Mask for delivery of beclomethasone dipropionate 120[P69]  
Bacille Calmette-Guerin immunization reduces bronchial hyperresponsiveness 86[19]  
Bacitracin as cause of intraoperative anaphylaxis 91[38]  
Barrier cream for prevention of contact dermatitis due to latex 139[P148]  
Basophil activation and leukotriene C4 release, analysis by flow cytometry in patients with allergy to drugs 141[P156]  
flow cytometric analysis of, for allergy diagnosis 105[P12]  
Beconase AQ compared with Nasacort AQ and Flonase 154[P206]  
Beclomethasone dipropionate compared with ipratropium bromide in treatment of perennial rhinitis 125[P90]  
delivery by Aerochamber with Mask compared with Babyhaler 120[P69]  
inhibition of leukotriene production by 497  
Beekkeepers risk assessment for systemic reactions to stings in 473  
Mexican, allergy to bee venom in 145[P172]  
Bicarbonate, sodium in treatment of respiratory failure due to status asthmaticus 69  
Bird sensitization with egg allergy 213  
Bitolterol compared with albuterol in treatment of asthma 112[P37]  
Bloodworms as cause of asthma and rhinitis 150[P191]  
Breast milk feeding, relationship of duration to allergic rhinitis, asthma, and urticaria 147[P178]  
Breathing, maladaptive, mistaken for vocal cord dysfunction 116[P54]  
Breathlessness, poor perception by asthmatic children 96[59]  
Brompheniramine compared with terfenadine in allergic rhinitis 142[P160]

- Bronchiectasis 599  
 Bronchiolitis obliterans 449  
 Bronchitis, chronic obstructive, after exposure to radiation at Chernobyl 131[P114]  
 Bronchospasm, exercise-induced, prevention by flunisolide 156[P214]  
 Buckwheat, allergy to, with pulmonary hemosiderosis 233  
 Budesonide  
     compared with azelastine in treatment of allergic rhinitis 125[P91]  
     intranasal, with antibiotic, in treatment of acute sinusitis 598

## C

- C1 deficiency in patient with cold urticaria 91[37]  
 C5 deficiency, partial 136[P135]  
 Cancer, effect of pidotimod in vitro on immune function of cells of patients with 130[P111]  
 Candidiasis, mucocutaneous, and sinusitis associated with leukocyte adherence deficiency 131[P113]  
 Carob hypersensitivity in peanut-allergic children 97[64]  
 Cefprozil, cutaneous reaction to 141[P153]  
 Cell-mediated immunity, predictive value in critically ill patients 130[P110]  
 Cetirizine  
     compared with loratadine for effect on rhinitis provoked by ragweed challenge 126[P93]  
     compared with loratadine in treatment of allergic rhinitis 143[P161]  
     effect of rhinoconjunctivitis 126[P95]  
     inhibition of cytokine-enhanced in vitro eosinophil survival by 581  
     use during pregnancy 183  
     with pseudoephedrine compared with xylometazoline 126[P94]  
 Chambers, plastic and metal, comparison for delivery of budesonide 120[P70]  
 Charcot joint disease in a child 104[P8]  
 Chironomus as cause of asthma and rhinitis 150[P191]  
 Cholangitis, primary sclerosing, associated with ulcerative colitis and vasculitis 103[P4]  
 Chronic obstructive pulmonary disease, response to ipratropium, albuterol, and both 110[P30]  
 Ciliary dyskinesia 100[75], 559  
 Clarithromycin as prophylaxis for *Mycobacterium avium intracellulare* 135[P130]  
 Claritin-D, effect on allergic rhinitis and asthma 95[56]  
 Coarctation of aorta associated with asthma 117[P58]  
 Cockroach-reactive T lymphocytes 83[6]

- Codfish, allergy to 187  
 Cognition, impairment of, in patients with systemic lupus erythematosus 103[P3]  
 Cold, common 531  
 Colitis, ulcerative, associated with primary sclerosing cholangitis and vasculitis 103[P4]  
 Communication with patients 1  
 Complement factor D deficiency with pneumococcal meningitis 100[74]  
 Conduction system, hyperexcitable, as cause of cardiac arrhythmia due to  $\beta_2$ -agonist 230  
 Conjunctivitis  
     allergic contact, due to phenylephrine 569  
     allergic, perceived by adolescents 29  
     digital imaging for evaluation of effect of cetirizine in rhinoconjunctivitis 126[P95]  
     due to metamizole and metronidazole 345  
     occupational, due to Dermastid beetle 151[P195]  
     recalcitrant, due to cicatrarial pemphigoid 150[P190]  
 Constipation due to cow milk protein 147[P177]  
 Contraceptive, oral, for treatment of asthma 115[P50]  
 Corticosteroids  
     high dose, effect on IgG concentration and lymphocyte counts 133[P123]  
     intranasal, adverse effects of 439  
 Cost of allergenic extract preparation for immunotherapy 109[P26]  
 Cost of care for allergic rhinitis, effect of immunotherapy upon 109[P28]  
 Cow milk protein as cause of constipation 147[P177]  
 Cromolyn compared with furosemide for protection 238  
*Cucumis melo*, overripe, causing anaphylaxis due to ethanol 285  
 Cyclosporin A for treatment of atopic dermatitis 153[P201]  
 hyperimmunoglobulin E syndrome 413  
 Cytokine production in nonatopic subjects 45  
 CYP4503A4 isoenzyme in metabolism of corticosteroids, effect of ketoconazole 156[P215]

## D

- Decongestants, adverse effects of 439  
 Delayed hypersensitivity  
     predictive value in critically ill patients 130[P110]  
     to thimerosal in RhoGAM 140[P151]  
 DermaMED for prevention of contact dermatitis due to latex 139[P148]  
 Dermatitis, atopic  
     aggravated by rice 151[P193]  
     fatty acid levels in plasma phospholipids in children with 146[P174]

- IgE antibodies to *Staphylococcus aureus* in children with 146[P173]  
 responsive to cyclosporin A 153[P201]  
 transferred by bone marrow transplantation 513

- with polyarteritis nodosa 92[42]  
 Dermatitis, contact 160  
     due to latex, nonlatex glove liner for 138[P142]  
     due to latex, prevention by barrier cream 139[P148]

- Dermatitis, occupational  
     due to Dermastid beetle 151[P195]  
     due to *Tetranychus urticae* 146[P176]

- Dermatoconjunctivitis, allergic contact, due to phenylephrine 569  
 Dermatomyositis  
     juvenile 105[P10]  
     juvenile, presenting with cardiac arrhythmias 89[30]

- Dermatophagoïdes at high altitude in Venezuela 144[P168]

- Dermestid beetle, allergy to 151[P195]  
 Descarboethoxyloratadine  
     causing QTc prolongation in guinea pig 142[P159]

- compared with loratadine 143[P164]

- Densensitization to  
     fluconazole 88[25]  
     growth hormone 89[29]

- Dexamethasone  
     for prevention of meningismus due to intravenous immunoglobulin 153[P203]  
     intranasal, compared with fluticasone in treatment of allergic rhinitis 155[P212]

- Diarrhea in common variable immunodeficiency due to zinc deficiency 134[P128]  
 DiGeorge syndrome, IgA deficiency in patients with 134[P127]

- Digital nasal airway imaging for comparison of effects of cetirizine with pseudoephedrine with xylometazoline 126[P94]

- Digoxin inhibition of peripheral blood mononuclear proliferation by 466

- Diphtheria antibody, failure to produce 137[P137]

- Doxepin, topical, effect on pruritus due to allergy skin testing 122[P77]

- Drugs, allergy to, evaluation by flow cytometry of basophil activation and leukotriene C4 release 141[P156]

- Dysfunction, vocal cord, airway fluoroscopic diagnosis of 586

## E

- Eczema in Wiskott-Aldrich syndrome 179  
 Education  
     evaluation of, in patients with asthma 113[P44]

- patient, rating of asthma videos and pamphlets 113[P41]
- Emfoterol, differences in activities of enantiomers of 52
- Egg, allergy to, with bird protein sensitization 213
- Electrostatic charge, effect on delivery of budesonide from chambers 120[P70]
- Emergency room management of asthma compared with allergy clinic 373
- EMLA cream
- effect on pain of intradermal skin testing 122[P79]
  - for allergy skin testing 64
- Enantiomers of emfoterol, different activities of 94[52]
- Endotoxin as contaminant of latex gloves 84[9]
- Enzyme, sodium potassium adenosine triphosphatase, inhibition of, in mononuclear cells in allergic rhinitis 259
- Eosinophil
- cationic protein, effect of blood sample on concentration of 394
  - inhibition of cytokine-enhanced survival by ceftrizine 581
- Eosinophils due to incontinentia pigmenti 149[P186]
- Eosinophilic gastritis and gastroesophageal reflux in patient with asthma 80
- Eosinophilic peritonitis and eosinophilic cutaneous inflammation due to allergy to ethylene oxide 88[28]
- Epinephrine, inhaled, patterns of use of 110[P29]
- Epithelial cells, modulation of cytokine production by furosemide 94[51]
- Epstein-Barr virus infection as cause of recurrent pneumonia 154[P205]
- Erythrocyte aplasia responsive to intravenous immunoglobulin in patient with human immunodeficiency virus infection 135[P131]
- Ethanol in overripe *Cucumis melo* as cause of anaphylaxis 285
- Ethylene oxide
- causing eosinophilic peritonitis and eosinophilic cutaneous inflammation 88[28]
  - sensitization to 217
- Eustachian tube dysfunction in allergic children with language development disorders 128[P103]
- Extracts, allergenic minimizing labeling errors in preparation of 108[P24]
- procedures for investigating possible compounding errors 109[P25]

## F

- Fatty acid levels in plasma phospholipids in atopic dermatitis 146[P174]

- Fennel seed, as cause of occupational allergy, rhinoconjunctivitis and asthma 37
- Fenugreek, allergy to 297
- FEV<sub>1</sub> compared with oxygen saturation after methacholine challenge 124[P85]
- Fexofenadine in treatment of allergic rhinitis 25[P89]
- Fire ant
- imported, Hymenoptera hypersensitivity in an endemic area 369
  - venom, hypersensitivity, immunotherapy for [Letter] 602
- Fish, allergen oil cross-reactivity of 187
- Floctafenine as alternative for patients with adverse reactions to nonsteroidal anti-inflammatory drugs 74
- Flonase compared with Beconase AQ and Nasacort AQ 154[P206]
- Fluconazole, desensitization to 88[25]
- Flunisolide for prevention of exercise-induced bronchospasm 156[P214]
- Fluoscopic diagnosis of vocal cord dysfunction 586
- Fluticasone propionate
- aqueous nasal spray compared with beclomethasone dipropionate in treatment of nasal polyposis 270
  - aqueous nasal spray compared with loratadine in treatment of allergic rhinitis 127[P100]
  - aqueous nasal spray in treatment of perennial allergic rhinitis in children 479
  - effects on plasma cortisol and osteocalcin 97[62]
  - in treatment of asthma 356
  - inhaled, effect on plasma cortisol after cosyntropin stimulation 156[P213]
  - intranasal, compared with dexamethasone in treatment of allergic rhinitis 155[P212]
  - intranasal, compared with loratadine for ocular effects in allergic rhinitis 128[P101]
  - intranasal, in treatment of allergic rhinitis, lack of correlation of response with glucocorticoid receptor characteristics 319
- Food allergy
- associated with latex allergy 83[8]
  - lack of association with human immunodeficiency virus infection 209
  - transferred by bone marrow transplantation 513
- Formoterol in treatment of asthma 111[P35]
- Formulas, protein hydrolyzed, evaluation of antigenicity of 153[P202]
- Fungi
- in homes 544
  - in house dust 148[P184]
- Furosemide
- compared with cromolyn for protection from bronchial constriction induced by ultrasonically nebulized distilled water 238

- modulation of production of cytokines by epithelial cells 94[51]

## G

- Gastritis due to *Helicobacter pylori*, association with chronic urticaria 85[13]
- Gastroesophageal reflux and eosinophilic gastritis in patient with asthma 80
- Glove liner, nonlatex, for contact dermatitis due to latex 138[P142]
- Glucocorticoid receptor characteristics, lack of correlation of responses to fluticasone propionate with, in patients with allergic rhinitis 319
- Glucocorticosteroids, inhibition of leukotriene production by 497
- Growth hormone, desensitization to 89[29]
- Glycosides, cardiac, inhibition of peripheral blood mononuclear cell proliferation 466

## H

- Hair conditioner as cause of angioedema [Letter] 602
- Headaches, cluster, in patients with sinusitis 129[P108]
- Health care utilization by asthmatic African-Americans 92[43]
- Hearing loss, Po protein as autoallergen in 107[P17]
- Heiner syndrome and toxocariasis 150[P192]
- Helicobacter pylori* as cause of gastritis associated with chronic urticaria 85[13]
- Hemodialysis, hypersensitivity reaction during 217
- Hemosiderosis, pulmonary, with allergy to buckwheat 233
- Hereditary angioedema 148[P183]
- Heredity of allergy and hay fever 149[P188]
- Herring, cross-reactivity with mackerel 187
- Histamine
- positive and negative cutaneous reactivity to, comparison of patients with 123[P81]
  - release from rat mast cells 106[P14]
- Holding chambers and spacers for metered dose inhalers, patient preferences before and after education 119[P66]
- Honeybee
- stings, risk assessment for septicemic reactions to 473
  - venom allergy in Turkey 408
- House dust, standardized synthetic 121[P76]
- Human immunodeficiency disease, aeroallergen-specific IgE changes in patients with rapid progression of 301
- Human immunodeficiency virus infection
- allergy in children with 87[24]
  - lack of association of food allergy with 209

with erythrocyte aplasia responsive to intravenous immunoglobulin 135[P131]  
Human T-lymphotropic virus type 1 infection associated with T cell lymphoma 130[P109]  
Hydroxyzine, use during pregnancy 183  
Hymenoptera venom hypersensitivity 369  
hypersensitivity in beekeepers 473  
in Mexican beekeepers 145[P172]  
in Turkey 408  
rush immunotherapy for 107[P19]  
Hyperimmunoglobulin E syndrome treatment with cyclosporin A 413  
with severe asthma 136[P133]  
Hyperimmunoglobulinemia M, dichotomy between genotype and phenotype 87[22]  
Hyperresponsiveness  
airway, in asthmatic patients in remission 124[P86]  
bronchial, inhibition by loratadine 96[58]  
in children with sickle cell thalassemia 124[P88]  
reduced by BCG injection 86[19]  
role of low affinity IgE receptor (CD23) 86[20]  
Hypersensitivity pneumonitis and vocal cord dysfunction mistaken for asthma 101[78]  
Hypogammaglobulinemia  
associated with pernicious anemia 17  
with acrodermatitis enteropathica, response to zinc 99[69]  
Hyposensitization with combination of allergen and suppressive immunomodulator 109[P27]  
Hypothesis, testing 5

## I

iC3b increased in patients with urticaria and angioedema 85[14]  
IgA deficiency in patients with DiGeorge syndrome 134[P127]  
IgE  
aeroallergen-specific changes in patients with rapid progression of human immunodeficiency virus disease 301  
determination by IRMA, CAP, and Immulite 122[P78]  
elevation, associated with B-cell lymphoma 27  
for screening of patients for referral 123[P84]  
hypogammaglobulinemia 313  
local production with middle ear effusions 98[66]  
relationship to severity of asthma 93[46]  
responses in a murine model of mite sensitivity 106[P16]  
specific, to house dust mite, seasonal changes in 589

synthesis in children after exposure to radiation at Chernobyl 131[P116]  
IgG concentration, effect of high dose corticosteroids 133[P123]  
IgG1 and IgG4 antibodies to  $\beta$ -lactoglobulin and ovalbumin 363  
IgG2 deficiency, persistence of anti-pneumococcal antibody after immunization of patients with 136[P136]  
Immune function, mathematical model of P204  
Immunodeficiency  
after exposure to radiation at Chernobyl 132[P117], 132[P118]  
severe, combined 253  
with microcephaly, triphalangeal thumbs, syndactyly, micrognathia, and hypoplastic alae nasi 76  
with multiple myeloma in remission 101[77]  
with thymoma and agranulocytosis 99[71]  
Immunodeficiency, common variable 339  
associated with sarcoidosis 133[P121]  
due to zinc deficiency 134[P128]  
presenting with pericarditis 135[P129]  
with sarcoidosis 137[P140]  
Immunoglobulin  
concentrations in serum and bronchoalveolar lavage fluid in asthmatic patients 124[P87]  
intravenous, dexamethasone for prevention of meningitis due to 153[P203]  
intravenous, response of erythrocyte aplasia in patient with human immunodeficiency virus infection 135[P131]  
Immunotherapy  
accelerated 82[3]  
compounding errors, procedures for investigation of 109[P25]  
cost of preparation of allergenic extracts for 109[P26]  
effect evaluated by Phadiatop 121[P75]  
factors that potentiate systemic reactions to 108[P22]  
for allergic rhinoconjunctivitis and asthma 107[P20]  
for allergy to fire ant venom [Letter] 602  
for Hymenoptera hypersensitivity 369  
oral, with short ragweed extract 573  
rapid 82[4]  
rush 108[P21]  
rush, cost and safety [Letter] 79  
rush, for Hymenoptera hypersensitivity 107[P19]  
survey of treatment of reactions to 82[2]  
with soluble fractions of *Penicillium notatum* 107[P18]  
Immunosuppressive treatment of arteritis of Takayasu 104[P5]  
In memoriam, MM Fenton 425  
Incontinentia pigmenti as cause of cutaneous eruption and eosinophilia 149[P186]

Infarction, acute myocardial, misdiagnosed in patient with anaphylaxis 90[36]  
Infection, upper respiratory 531  
Infections, viral, as cause of wheezing in Egyptian infants 152[P200]  
Influenza, effect on exhaled nitric oxide 96[60]  
Inhaler, metered dose  
compared with Turbuhaler 98[P68]  
compared with Turbuhaler for delivery of albuterol 59  
perceptions of elderly patients 118[P61]  
technique of use 119[P67]  
with spacer compared with nebulizer for treatment of acute asthma with albuterol 123[P83]  
Interferon- $\beta$ -1b, split dosing of, to reduce local reactions 104[P7]  
Interleukin-2, production by peripheral blood mononuclear cells of children with atopic dermatitis, decrease of 517  
Interleukin-4 released in human lung anaphylaxis 566  
Interleukin-5, production by peripheral blood mononuclear cells of children with atopic dermatitis, increase of 517  
Ipratropium bromide  
compared with beclomethasone dipropionate in treatment of perennial rhinitis 125[P90]  
intranasal, adverse effects of 439  
nasal spray, in treatment of perennial rhinitis in children 485  
response of chronic obstructive pulmonary disease 110[P30]  
Irradiation for benign lymphoepithelial lesions of parotid glands in children with human immunodeficiency virus infection 98[68]

## K

Kawasaki disease, immunologic abnormalities with 90[33]  
Keratoconus as complication of vernal keratoconjunctivitis 147[P179]  
Ketoconazole, effect on metabolism of corticosteroids by CYP4503A4 156[P215]  
Kimura's disease in Lebanese woman 137[P139]

## L

$\beta$ -Lactoglobulin, IgG1 and IgG4 antibodies to 363  
Lady Windermere syndrome 559  
Language development disorders in allergic children 128[P103], 148[P181]  
Latex allergen transfer prevented by glove liners 84[10]

- Latex allergy**  
 association with food allergy 83[8]  
 characterization of proteins associated with fruit allergy and comparison of fresh frozen and commercial fruit extracts 84[12]  
 clinical indicators of 86[18]  
 in Saudi children with spina bifida 83[7]  
 sublingual treatment for 142[P157]
- Latex**  
 contact dermatitis due to, prevention by barrier cream 139[P148]  
 crossreactivity with recombinant birch profilin 84[11]  
 systemic allergic reactions to 139[P146]
- Latex gloves**  
 contaminated with endotoxin 9  
 effect of temperature on amount of allergen extracted 140[P149]
- Latex particles, atmospheric, lack of association with emergency visits for asthma 138[P143]**
- Latex policy survey of New England Allergy Society 139[P145]**
- Latex sensitization, prevalence among hospital employees 41**
- Leukemia, T cell, in patient with ataxia telangiectasia 135[P132]**
- Leukocyte adhesion**  
 defect as cause of delayed separation of umbilical cord 133[P124]  
 deficiency associated with mucocutaneous candidiasis and sinusitis 131[P113]
- Leukotriene production, inhibition by glucocorticosteroids 497**
- Levofloxacin in treatment of sinusitis 125[P92]**
- Loratadine**  
 compared with cetirizine for effect on rhinitis provoked by ragweed challenge 126[P93]  
 compared with cetirizine in treatment of allergic rhinitis 143[P161]  
 compared with descarboethoxyloratadine 143[P164]  
 compared with fluticasone propionate aqueous nasal spray in treatment of allergic rhinitis 127[P100]  
 compared with intranasal fluticasone propionate for ocular effects in allergic rhinitis 128[P101]  
 compared with triamcinolone aqueous nasal spray in treatment of allergic rhinitis 127[P97], 155[P210]  
 inhibition of bronchial hyperresponsiveness after allergy challenge 58  
 metabolite causing release of histamine from guinea pig cardiac mast cells 142[P158]  
 with pseudoephedrine, effect on allergic rhinitis and asthma 95[56]
- Lung**  
 agenesis of, associated with asthma 114[P48]
- sound analyzer for localization of wheezing 94[49]
- Lymphocyte stimulation, flow cytometric analysis of, for allergy diagnosis 106[P13]**
- Lymphoma**  
 B-cell, associated with increased IgE 27  
 T cell, associated with human T-lymphotropic virus type 1 infection 130[P109]  
 T-cell, presenting with angioedema 40
- Lysozyme as occupational allergen 225**
- M**
- Mackerel, cross reactivity with plaice and herring 187**
- Mast cells, cardiac, release of histamine by terfenadine and loratadine metabolite 142[P158]**
- Maxair Autohaler compared with nebulized albuterol 118[P63]**
- Meningitis due to *Neisseria meningitidis* 134[P125]**
- Metamizole as cause of rhinoconjunctivitis 345**
- Metered dose inhaler, instruction in use of [Letter] 525**
- Methacholine**  
 challenge, effect on FEV<sub>1</sub> and oxygen saturation 124[P85]  
 effect on cellular components of induced sputum in asthma 87[21]
- N-Methylhistamine, urinary, in asthmatic children treated with azelastine 492**
- Methylprednisolone, oral compared with intravenous in treatment of asthma 111[P36]**
- Metronidazole as cause of rhinoconjunctivitis 345**
- Mites**  
 at high altitude in Venezuela 144[P168]  
 house dust, effect of avoidance and acaricide on symptoms of asthma 506  
 house dust, murine model of sensitivity to 106[P16]  
 house dust, seasonal changes in 589
- Mold**  
 changes in Newark, NJ 85[16]  
 as cause of food-dependent exercise-induced anaphylaxis 102[84]  
 atmospheric, association with emergency visits for asthma 138[P143]  
 in homes 544
- Mometasone furoate**  
 effect in allergic rhinitis 129[P106]  
 in treatment of perennial allergic rhinitis 154[P208]  
 inhibition of leukotriene production by 497  
 lack of adrenal suppression due to 154[P207]  
 nasal spray with and without loratadine for treatment of allergic rhinitis 126[P96]
- Mononuclear cell, peripheral blood, inhibition of proliferation by cardiac glycosides 466**
- Morrow Brown diagnostic needle [Letter] 79**
- Mortality**  
 from asthma 333, 347  
 from asthma, stabilization of 93[45]
- Moya-Moya disease treated with cyclophosphamide and prednisone 104[P6]**
- Multiple myeloma in remission with immunodeficiency 101[77]**
- Multiple sclerosis, treatment with interferon-β-1b 104[P7]**
- Mycobacterium avium-intracellulare***  
 clarithromycin as prophylaxis for 135[P130]  
 complex as causing pulmonary disease 559
- N**
- Nasacort AQ compared with Beconase AQ and Flonase 154[P206]**
- Nasacort compared with Tri-Nasal in treatment of allergic rhinitis 155[P209]**
- Nasal hyperreactivity**  
 dependent upon indoor environment 127[P98]  
 seasonal, in allergic rhinitis 127[P99]
- Nebulizer compared with metered dose inhaler with spacer for treatment of acute asthma with albuterol 123[P83]**
- Nebulizer-compressor combinations, comparison of 119[P65]**
- Nebulizers, jet, comparison of 118[P64], 64**
- Nedocromil sodium and triamcinolone acetone, synergism in treatment of asthma 156[P216]**
- Nitric oxide**  
 in sera of patients with building-related respiratory symptoms 151[P196]  
 increases in gas exhaled from mouth but not nose after influenza 96[60]
- Nitroglycerin, anaphylactoid reactions to 138[P144]**
- Nonionic contrast media, noncardiogenic pulmonary edema due to 140[P152]**
- Nonsteroidal antiinflammatory drugs**  
 anaphylactoid reactions to 293  
 reactions to, floctafenine as alternative for patients with 74
- Norastemizole**  
 and astemizole receptor binding properties 144[P167]  
 pharmacokinetics and pharmacodynamics 144[P165]
- Nurse-practitioner-driven asthma management program 93[48]**
- O**
- Olea europaea*, pollen in Spain 278**
- Otitis media with effusion, role of allergy in 129[P107]**

Ouabain, inhibition of peripheral blood mononuclear cell proliferation 466  
Ovalbumin, IgG1 and IgG4 antibodies to 363  
Oximetry, pulse, compared with peak expiratory flow rate as predictor of outcome of acute asthma 112[P38]  
Oxygen  
high flow, in treatment of respiratory failure due to status asthmaticus 69  
saturation compared with FEV<sub>1</sub> after methacholine challenge 124[P85]

## P

Papillon-Lefevre syndrome associated with allergic rhinitis and asthma 137[P138]  
Paracetamol and aspirin, adverse reactions to 88[26]  
Parotitis, autoimmune 105[P9]  
Parvovirus B19 as cause of anemia 135[P131]  
Patients, communication with 1  
Peak expiratory flow rate  
compared with pulse oximetry as predictor of outcome of acute asthma 112[P38]  
monitoring of [Letter] 425  
Peanut causing anaphylaxis in patient with Wiskott-Aldrich syndrome 134[P126]  
Pemphigoid, cicatricial, presenting as conjunctivitis 150[P190]  
Penicillin  
nontherapeutic exposure, as cause of anaphylaxis [Abstract] A-18  
sensitization induced by skin testing 141[P154]  
*Penicillium notatum*, immunotherapy with soluble fractions of 107[P18]  
Peptidase, serralial, as occupational allergen 225  
Peptides, tolerogenic 83[5]  
Perfume, effect in asthma 95[54]  
Pericarditis in common variable immunodeficiency 135[P129]  
Phadiatop  
for screening of patients for referral 123[P84]  
in evaluation of immunotherapy 125[P89]  
Phenylephrine hydrochloride eyedrops, allergic contact reactions to 569  
Phototherapy, narrow band red light for allergic rhinitis and nasal polypsis 399  
Pidotimod, in vitro effect on immune function of cells of patients with neoplasms 130[P111]  
Piperacillin inducing fatal autoimmune hemolytic anemia 88[27]  
Pirbuterol by Maxair Autohaler compared with nebulized albuterol 118[P63]  
Plaice, cross-reactivity with mackerel 187  
Pneumococcal vaccine, conjugate, in patients unresponsive to conventional vaccine 136[P134]  
*Pneumocystis carinii* pneumonia with chronic mucocutaneous candidiasis 99[72]

Pneumomediastinum with subcutaneous emphysema due to status asthmaticus 116[P55]  
Pneumonia, recurrent, due to Epstein-Barr virus infection 154[P205]  
Pneumonitis  
hypersensitivity, due to sick building syndrome 89[32]  
interstitial, induced by Rhizopus antigen in guinea pigs 105[P11]  
Po protein as autoallergen in hearing loss 107[P17]  
Pollen  
changes in Newark, NJ 85[16]  
grass, as cause of allergic rhinitis 145[P169]  
recovery by different Rotorod Samplers 145[P170]  
tree, as cause of allergic rhinitis 145[P169]  
Polyarteritis nodosa with central nervous system involvement and severe atopic dermatitis 92[42]  
Polyposis, nasal.  
fluticasone propionate aqueous nasal spray compared with beclomethasone dipropionate in treatment of 270  
lack of effect of narrow band red light phototherapy on 399  
Power analysis 5  
Pregnancy  
use of antihistamines during 157  
use of hydroxyzine and cetirizine during 183  
Primatene Mist, patterns of use of 110[P29]  
Profilin, birch, crossreactivity with latex 84[11]  
Proptosis due to allergic fungal sinusitis 102[81]  
Provocation, nasal, for diagnosis of urticaria due to aspirin 138[P141]  
Pulmonary edema, noncardiogenic, due to nonionic contrast media 140[P152]  
Pyoderma gangrenosum treated with thalidomide 1-2[P185]  
Pyrazole derivatives, anaphylactoid reactions to 293

## Q

Quality of life  
in patients with allergic rhinitis 155[P210]  
in patients with allergic rhinitis, effect of immunotherapy upon 109[P28]  
of asthmatic African-Americans 92[43]

## R

Radiation  
at Chernobyl, chronic obstructive bronchitis after exposure to 131[P114]  
effect on allergic diseases 132[P119]  
IgE synthesis in children after exposure to 131[P116]

immunodeficiency after exposure to 132[P117], 132[P118]  
T cell immunity in children after exposure to 131[P115]  
Ragweed  
challenge in environmental exposure unit, comparison of cetirizine with loratadine for effects on rhinitis provoked by 126[P93]  
oral, immunotherapy for allergy to 573  
Reactions, anaphylactoid, to nonsteroidal antiinflammatory drugs 293  
Receptor, low-affinity IgE (CD 23), role in airway hyperresponsiveness 86[20]  
Recruitment of subjects for asthma intervention 93[47]  
Respiratory failure in status asthmaticus, treatment with high flow oxygen and sodium bicarbonate 69  
Rhinitis, allergic  
adverse effects of medications for 427  
antihistamines compared with intranasal corticosteroids by effects on outcomes in treatment of 155[P211]  
azelastine compared with budesonide in treatment of 125[P92]  
azelastine nasal spray in treatment of 143[P162]  
cerebrospinal rhinorrhea mistaken for 102[82]  
cetirizine compared with loratadine in treatment of 143[P161]  
comparison of Multi-Test II and intradermal testing with history 122[P80]  
due to tree and grass pollen 145[P169]  
effect of immunotherapy on cost of care and quality of life 109[P28]  
effect of low doses of clemastine 307  
effect of mometasone furoate 129[P106]  
fluticasone, intranasal, in treatment of, lack of correlation of response with glucocorticoid receptor characteristics 319  
heredity of 149[P188]  
immunotherapy for 107[P20]  
in patient with Papillon-Lefevre syndrome 137[P138]  
inhibition of sodium potassium adenosine triphosphatase in mononuclear cells of patients with 259  
intranasal dexamethasone compared with fluticasone in treatment of 155[P212]  
intranasal fluticasone propionate compared with loratadine for ocular effects 128[P101]  
loratadine compared with triamcinolone aqueous nasal spray in treatment of 155[P210]  
narrow band red light phototherapy for treatment of 399  
oral immunotherapy, treatment of 573  
perceived by adolescents 29  
seasonal nasal hyperreactivity in 127[P99]

signs of 128[P104]  
treatment with brompheniramine compared with terfenadine 142[P160]  
treatment with fexofenadine 125[P89]  
treatment with fluticasone propionate aqueous spray compared with loratadine 127[P100]  
treatment with loratadine with pseudoephedrine 95[56]  
treatment with triamcinolone aqueous nasal spray compared with loratadine 127[P97]  
triamcinolone acetonide nasal aerosol, pre-seasonal, for prevention of symptoms of 325  
Tri-Nasal compared with Nasacort in treatment of 155[P209]  
Rhinitis due to bloodworms (*Chironomus*) 150[P191]  
Rhinitis due to metamizole and metronidazole 345  
Rhinitis, occupational, due to Dermestid beetle 151[P195]  
Rhinitis, perennial, in children, treatment with ipratropium nasal spray 485  
Rhinitis, perennial allergic mometasone furoate in treatment of 154[P208]  
in children, treatment with fluticasone propionate aqueous nasal spray 479  
Rhinitis, perennial nonallergic, CT scans of paranasal sinuses in 129[P105]  
Rhinitis, perennial, treatment with ipratropium bromide and beclomethasone dipropionate compared 125[P90]  
Rhinconjunctivitis  
allergic, occupational, due to fennel seed 37  
effect of cetirizine on 126[P95]  
perceived by adolescents 29  
Rhinorrhea, cerebrospinal, mistaken for allergic rhinitis 102[82]  
RhoGAM, delayed hypersensitivity to thimerosal in 140[P151]  
Rice, intolerance to 151[P193]  
Risk assessment for systemic reactions to stings in beekeepers 473  
Rock melon, (*Cucumis melo*), overripe as cause of anaphylaxis due to ethanol 285  
Rotorod samplers, pollen recovery by different models 145[P170]

## S

Salmeterol  
compared with theophylline for treatment of asthma 457  
effect on nocturnal asthma 111[P33]  
effect on quality of life 110[P32]  
response of asthma with and without inhaled corticosteroid 110[P31]  
Sarcoidosis

associated with common variable immunodeficiency 133[P121]  
in patient with common variable immunodeficiency 137[P140]  
presenting as angioedema 92[41]  
Seminal plasma hypersensitivity, prevalence of 54  
Serratial peptidase as occupational allergen 225  
Sick building syndrome  
due to *Stachybotrys atra* 151[P196]  
evaluation for 98[65]  
nasal symptoms in 152[P198]  
Sickle cell-thalassemia, airway hyperresponsiveness in children with 124[P88]  
Sighing as manifestation of asthma 112[P40]  
Sinuses, paranasal, CT scans in perennial non-allergic rhinitis 129[P105]  
Sinusitis  
acute, treatment with intranasal budesonide in addition to antibiotic 598  
allergic fungal, presenting as proptosis 102[81]  
associated with cluster headaches 129[P108]  
treatment with levofloxacin 125[P92]  
Skin testing  
reactivity to house dust mite, seasonal changes in 589  
with bevel up compared with bevel down 594  
Sleep-related breathing disorders due to environmental allergy 128[P102]  
Smoking exposure of asthmatic children 419  
Spacers and chambers for metered dose inhalers, patient preferences before and after education 119[P66]  
Specialist, care by, effect on treatment of asthma and outcome 92[44]  
Sputum, induced, in asthmatic patients, effect of methacholine on cellular components of 87[21]  
*Stachybotrys atra* as cause of building-related symptoms 151[P196]  
*Staphylococcus aureus*, IgE antibodies to, in children with atopic dermatitis 146[P173]  
Statistics, application of 5  
Status asthmaticus, induced by hot dog vapors 35  
*Strongyloides stercoralis* infection with gonococcal infection 100[73]  
Sulbactam, sensitization to 140[P150]  
Sulfasalazine, treatment of juvenile arthritis with 103[P1]  
Sympathomimetic drugs, adverse effects of 439  
Syncope due to  $\beta_2$ -agonist, patients with hyperexcitable conduction system 230  
Syndrome  
autoimmune lymphoproliferative 245  
autoimmune polyendocrine, with vasculitic urticaria 90[34]  
Omann's 253  
sick building, as cause of hypersensitivity pneumonitis 89[32]  
Wiskott-Aldrich 179  
Systemic lupus erythematosus  
correlation of autoantibodies with signs and symptoms 103[P2]  
impairment of cognition in patients with 103[P3]  
  

## T

T cell  
lymphoma presenting with angioedema 91[40]  
reactivity and histamine-releasing activity of allergen conjugated with synthetic polymer 106[P15]  
responses in a murine model of mite sensitivity 106[P16]  
T lymphocytes reactive to cockroach 83[6]  
Takayasu arteritis, treatment with immunosuppressives 104[P5]  
Temperature, effect on amount of latex extracted from gloves 140[P149]  
Terfenadine  
causing release of histamine from guinea pig cardiac mast cells 142[P158]  
compared with brompheniramine in allergic rhinitis 142[P160]  
Test, skin  
comparison of atopic patients with positive and negative tests to histamine 123[P81]  
long-term followup 86[17]  
prick and wipe method [Letter] 524  
Testing, skin  
comparison of devices for 123[P82]  
comparison of Multi-Test II with intradermal testing and history 122[P80]  
soon after anaphylaxis 151[P194]  
systemic reactions to 85[15]  
with glycerinated latex 82[1]  
with Morrow Brown Diagnostic Needle [Letter] 79  
with standardized pollen panels 108[P23]  
with use of EMLA cream 64  
Tests, screening, for referral 123[P84]  
Tetanus antibody, failure to produce 137[P137]  
*Tetranychus urticae* as cause of occupational dermatitis 146[P176]  
Thalidomide for treatment of pyoderma gangrenosa 149[P185]  
Theophylline  
compared with albuterol in treatment of nocturnal asthma 111[P34]  
compared with salmeterol for treatment of asthma 457  
response of asthma with and without inhaled corticosteroid 110[P31]  
Thimerosal, delayed hypersensitivity to 140[P151]

Thrombocytopenia in Wiskott-Aldrich syndrome 179  
Thymoma  
masquerading as angioedema 90[35]  
with immunodeficiency and agranulocytosis responsive to corticosteroid and azathioprine 99[71]  
Thymus-derived factors, effect in acute pulmonary tuberculosis 132[P120]  
Toilet paper roll compared with Azmacort spacer 121[P73]  
Tongue, swelling of, due to amyloidosis 91[39]  
Toxocariasis and Heiner syndrome 150[P192]  
Transplantation  
bone marrow, as cause of asthma 89[31]  
bone marrow, transfer of atopy by 513  
with umbilical cord for Wiskott-Aldrich syndrome 179  
Triamcinolone acetonide and nedocromil sodium, synergism in treatment of asthma 156[P216]  
aqueous nasal spray 57  
aqueous nasal spray compared with loratadine in treatment of allergic rhinitis 127[P97], 155[P210]  
nasal aerosol, preseasonal, for allergic rhinitis 325  
*Trigonella foenum graecum*, allergy to 297  
Tri-Nasal compared with Nasacort in treatment of allergic rhinitis 155[P209]  
Tuberculosis, acute pulmonary, effect of thymus-derived factors 132[P120]  
Turbuhaler  
compared with Accuhaler 118[P62]  
compared with metered dose inhaler 119[P68]  
compared with metered dose inhaler for delivery of albuterol 59

## U

Umbilical cord, delayed separation of, due to leukocyte adhesion molecule defect 133[P124]  
Unasyn, reaction to, due to sensitivity to sulbactam 140[P150]  
USS Wasp [Letter] 524  
Urticaria  
association with asthma, rhinitis, and allergy 147[P180]  
chronic, association with gastritis due to *Helicobacter pylori* 85[13]  
chronic, causes 149[P187]  
cold, with C1 deficiency 91[37]  
due to aspirin, nasal provocation for diagnosis of 138[P141]  
iC3b increased in patients with 85[14]  
vasculitic, with autoimmune polyendocrine syndrome 90[34]

## V

Vaccine, conjugated pneumococcal, in patients unresponsive to conventional vaccine 136[P134]  
Vancomycin, desensitization to 141[P155]  
Vapor, hot dog, provoking status asthmaticus 35  
Vasculitis associated with ulcerative colitis and primary sclerosing cholangitis 103[P4]  
Vernal keratoconjunctivitis complicated by keratoconus 147[P179]  
Vocal cord dysfunction  
airway fluoroscopic diagnosis of 586  
induced by gastroesophageal reflux mistaken for asthma 101[79]

maladaptive breathing pattern mistaken for 116[P54]  
masquerading as asthma 115[P52]

## W

Wasp venom allergy in Turkey 408  
Weaning, early, association with allergic rhinitis, asthma, and urticaria 147[P178]  
Wheezers Anonymous, evaluation of 114[P45], 114[P46]  
Wheezing  
due to viral infections in Egyptian infants 152[P200]  
localization of, by lung sound analyzer 94[49]  
Wiskott-Aldrich syndrome, anaphylaxis due to peanut in patient with 134[P126]

## X

Xylometazoline compared with cetirizine with pseudoephedrine 126[P94]

## Z

Zafirlukast in treatment of exercise-induced asthma 113[P43]  
Zileuton  
effect in treatment of asthma 94[50]  
in treatment of asthma 113[P42]  
Zinc  
deficiency as cause of diarrhea in common variable immunodeficiency 134[P128]  
effect on hypogammaglobulinemia with acrodermatitis enteropathica 99[69]
